International Congress and Exhibition

23 – 24 March 2011

Technische Universität München, Garching

The 7th International Congress 'Forum Life Science' will be a meeting point for stakeholders focussing on the application of biosciences in the pharma, food and chemical sectors.

Leading experts from industry and science will present latest developments and research results in plenary and parallel sessions. In the accompanying exhibition, companies and institutes will showcase innovative products, technologies and services. The reception offers an additional opportunity for intensive conversation and networking.

Plenary Session

- Healthcare Strategies
- Food Innovations
- Perspectives in Bioeconomy
- Biotech and Sustainability
- Framework for Biobusiness

Pharma Development

- Drug Discovery
- Biopharmaceuticals
- Personalised Healthcare
- Biomarkers
- Regenerative Medicine
- Stem Cells

Food & Nutrition

- Nutraceuticals
- Metabolic Profiling
- Plant Biotechnology
- Food Processing
- Market Trends
- Regulatory Issues

Industrial Biotechnology

- Renewable Resources
- Bioprocess Engineering
- Biocatalysis
- Synthetic Biology
- Biorefinery
- Biobased Products

Exhibition

Companies and institutes present latest developments and technologies in:

- Analytics
- Drug Development
- Preclinical Research
- Bioprocess Technologies
- Biomaterials
- Nutrition and Health
- Food Safety
- Bioinformatics

Reception

**23 March 2011,
in the evening**
